

Former Naval Complex, Adak, Alaska Institutional Controls Education Evaluation Survey

Institutional Controls (ICs) are measures intended to prevent or reduce exposure to hazardous substances.

The purpose of ICs on Adak:

- Prevent or limit exposure to hazardous substances left in place at a site.
- Assure effectiveness of the chosen remedy until cleanup levels are achieved.

This Institutional Controls Education Evaluation Survey is intended to evaluate the effectiveness of ICs at protecting human health and the environment. **The information provided in the survey will only be used to evaluate the effectiveness of ICs on Adak and will not be used in any other fashion.**
